## Section 1. RATES OF RANGE-BUILDING PAYMENTS

Within the limits of the range-building allowance and subject to the conditions hereinafter set forth, payment will be made for carrying out on range land during a period of not more than 12 months ending between June 30 and December 31, 1941, inclusive, such of the range-building practices listed in this section as are recommended for the State by the State committee and approved by the Regional Director, and as are approved by the county committee for the ranching unit prior to their institution. The rates of payment listed below are the maximum rates allowable, and the rates of payment for any practice included may, for any State or area within a State, be adjusted downward by the State committee with the approval of the Agricultural Adjustment Administration in order to reflect relatively lower costs or desirability of the practice.

## Sec. 2. RANGE-BUILDING ALLOWANCE

(a) **Acreage and grazing capacity.** In Texas, Oklahoma, Kansas, Nebraska, and South Dakota, the range-building allowance shall be 2 cents per acre of range land in the ranching unit plus 90 cents times the grazing capacity of the range land; and in Arizona, California, New Mexico, Nevada, Utah, Colorado, Washington, Oregon, Idaho, Montana, Wyoming, and North Dakota, the range-building allowance shall be 3 cents per acre of range land in the ranching unit plus 70 cents times the grazing capacity of the range land: *Provided, however,* That in either area the grazing capacity item shall not be calculated on more than one animal unit for each 10 acres of range land in the ranching unit, and the acreage item shall not be calculated on more than 60 acres for each animal unit of grazing capacity established for the ranching unit: *Provided further,* That the amount computed under this paragraph shall not be less than 8 cents times the number of such acres or 2,000 acres, whichever is smaller.

(b) **Mountain meadow land.** In addition, the range-building allowance shall include 30 cents times the number of acres of mountain meadow land in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit. The counties in which this additional allowance is made shall be those mountain counties in the Western Region for which, upon the basis of the recommendations of the county and State committees, the regional director determines the reseeding and erosion control practices specified in section 1 to be necessary and effective in promoting range conservation: *Provided, however,* The mountain meadow land for which this additional allowance is made shall not be considered in calculating the portion of the range-building allowance provided for in paragraph (a).

## Sec. 3. CONDITIONS OF PAYMENT

(a) **Promotion of conservation and good range management.** Payments for carrying out range-building practices are conditioned upon the adoption or maintenance of conservative range management practices designed to secure or maintain a good stand of grass or other palatable forage plants and in bringing about such use of the forage resources of the ranch as will most effectively carry out the purposes of the Soil Conservation and Domestic Allotment Act. Payments under the 1941 Range Conservation Program will be made only with respect to those ranching units on which the county committee certifies that such range management practices have been followed.

The range-building practices approved by the county committee for any ranching unit shall be practices which the county committee finds are needed on the ranch in order to promote conservation and good range management.

(b) **Payments limited to range-building allowance.** The range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit. Payment will be made only if range-building practices are carried out according to specifications recommended by the State committee and approved by the regional director.

(c) **State or Federal aid.** If one-half or more of the total cost of carrying out any practice is represented by labor, seed, trees, or other materials furnished by any State or Federal agency other than the Agricultural Adjustment Administration, no payment shall be made for such practice. If less than one-half of the total cost of carrying out any practice is represented by such items, payment shall be made for one-half of such practice. Labor, seed, trees, and materials furnished to a State or political subdivision of a State or an agency thereof by an agency of the same State shall not be deemed to have been furnished by "any State \* \* \* agency" within the meaning of this paragraph.

Trees purchased from a Clark-McNary Cooperative State nursery shall not be deemed to have been paid for in whole or in part by a State or Federal agency. No payment will be made for the planting of forest trees furnished by the Forest Service in connection with the Prairie States Forestry Project.

(d) **Deduction for failure to maintain practices under previous programs.** Where the county committee, in accordance with instructions of the State Committee, determines that (1) water developments or fences constructed or forest trees planted are not maintained in accordance with good ranch management; (2) seedlings of perennial legumes or grasses are destroyed after ranch operators have been informed that the destruction of such legumes or grasses is contrary to the purposes of the program; or (3) the effectiveness of any range-building practice carried out under a previous program is destroyed in 1941 contrary to good range management, there will be deducted from payments which would otherwise be made with respect to the ranching unit an amount equal to the payment which would be made in 1941 for a similar amount of such practices.

(e) **Deductions for exceeding acreage allotments, breaking out native sod, etc.** Payments computed for any person for carrying out range-building practices shall be subject to any net deductions which are or could be computed for such person under the provisions of the 1941 Agricultural Conservation Program Bulletin except net deductions resulting from acreages of winter wheat in excess of the wheat acreage allotment or acreages of soil-depleting crops in excess of the total soil-depleting acreage allotment.

#### **Sec. 4. CHANGES IN LEASING ARRANGEMENTS AND OTHER DEVICES**

No payment will be made to any person who has for 1941 made any change from the 1940 leasing arrangements of range land for the purpose of, or which would have the effect of, diverting to such person any payment to which any lessee would be entitled if the 1940 leasing arrangements of such range land were in effect for 1941. If the State

committee finds that any person who files an application for a payment pursuant to the provisions of the 1941 Range Conservation Program has made any change from the 1940 leasing arrangements of such range land or has employed any other scheme or device whatsoever for the purpose of, or which would have the effect of, depriving any other person of any payment or share therein to which such other person otherwise would be entitled, the Secretary may withhold in whole or in part from the person participating in such a scheme or device, or require such person to refund in whole or in part, the amount of any payment which has been or otherwise would be made to such person for performance in connection with the 1941 Range Conservation Program.

#### Sec. 5. ELIGIBILITY FOR PAYMENT

(a) **Persons eligible to file application.** Application for range-building payment may be made only by ranch operators. Range-building payments will be made to (1) a sole ranch operator, or (2) each ranch operator of a group of two or more ranch operators, provided they all signify in the application for the range-building payment a percentum of the total payment to be made to each ranch operator. In case there are two or more ranch operators, the application must be made by all of them, except that in cases where any ranch operator refuses to sign the application for payment the county committee shall determine the percentage share of each ranch operator and payment of his percentage share will be made to each ranch operator applying for payment in accordance with such determination.

(b) **Time and manner of filing application and information required.** Payment will be made only upon application submitted through the county office, on or before a date fixed by the regional director, but not later than March 31, 1942. The Secretary reserves the right (1) to withhold payment from any ranch operator who fails to file any form or furnish any information required with respect to any ranching unit in which such ranch operator is interested, and (2) to refuse to accept any application for payment if any form or information required is not submitted to the county office within the time fixed by the regional director. At least two weeks' notice to the public shall be given in advance of the expiration of a time limit for filing prescribed forms.

(c) **Excess cotton acreage.** Any person who makes application for payment with respect to any ranching unit located in a county in which cotton is planted in 1941 shall file with such application a statement that the applicant has not knowingly planted or caused to be planted during 1941 cotton on land in any farm in which he has an interest in excess of the cotton acreage allotment determined for the farm for 1941 and that cotton was not planted in excess of such allotment by his authority or with his consent.

Any person who knowingly plants cotton on his farm in 1941 on acreage in excess of the cotton acreage allotment determined for the farm for 1941 shall not be eligible for any payment under the provisions of the 1941 Range Conservation Program. Any person having an interest in the cotton crop on a farm on which cotton is planted in 1941 on acreage in excess of the cotton acreage allotment for the farm for 1941 shall be presumed to have knowingly planted cotton on his farm on acreage in excess of such farm cotton acreage allot-

ment if notice of the farm allotment is mailed to him prior to the completion of the planting of cotton on the farm, unless the farmer establishes the fact that the excess acreage was planted to cotton due to his lack of knowledge of the number of acres in the tract(s) planted to cotton. Such notice, if mailed to the operator of the farm, shall be deemed to be notice to all persons sharing in the production of cotton on the farm in 1941.

#### **Sec. 6. PAYMENT RESTRICTED TO EFFECTUATION OF THE PURPOSES OF THE PROGRAM**

All or any part of any payment which otherwise would be made to any person under the 1941 Range Conservation Program may be withheld (1) if he has adopted any practice which tends to defeat any of the purposes of the 1941 or previous range conservation programs, (2) if, by means of any corporation, partnership, estate, trust, or any other device, or in any manner whatsoever, he has offset, or has participated in offsetting, in whole or in part, the performance for which such payment is otherwise authorized, or (3) if, with respect to forest land or woodland owned or controlled by him, he adopts any practice which is contrary to sound conservation practices.

No payment will be made to any person if it is determined in accordance with instructions issued by the Agricultural Adjustment Administration that, with respect to any ranch which he owns or operates, the stand of grass has been decreased or the forage, tree growth or watershed has been injured by overgrazing in 1941.

#### **Sec. 7. PAYMENTS COMPUTED AND MADE WITHOUT REGARD TO CLAIMS**

Any payment or share of payments shall be computed and made without regard to questions of title under State law, without deduction of claims for advances (except as provided in Section 11), and without regard to any claim or lien against any crop or livestock, or proceeds thereof, in favor of the owner or any other creditor.

#### **Sec. 8. INCREASE IN SMALL PAYMENTS**

The total payment computed for any person with respect to any ranching unit shall be increased as follows:

- (1) Any payment amounting to 71 cents or less shall be increased to \$1.00;
- (2) Any payment amounting to more than 71 cents but less than \$1.00 shall be increased by 40 percent;

### Sec. 9. PAYMENTS LIMITED TO \$10,000

The total of all payments made in connection with programs for 1941 under Section 8 of the Soil Conservation and Domestic Allotment Act to any individual, partnership, or estate with respect to farms, ranching units, and turpentine places located within a single State, Territory, or possession, shall not exceed the sum of \$10,000 prior to deduction for association expenses in the county or counties with respect to which the particular payment is made. The total of all payments made in connection with programs for 1941 under Section 8 of the Soil Conservation and Domestic Allotment Act to any person other than an individual, partnership or estate with respect to farms, ranching units and turpentine places in the United States (including Alaska, Hawaii, and Puerto Rico) shall not exceed the sum of \$10,000 prior to deduction for association expenses in the county or counties with respect to which the particular payment is made.

All or any part of any payment which has been or otherwise would be made to any person under the 1941 Agricultural Conservation Program, including the Range Conservation Program, may be withheld or required to be returned if he has adopted or participated in adopting any scheme or device, including the dissolution, reorganization, or formation of any corporation, partnership, estate, trust, or by any other means, which was designed to evade, or would have the effect of evading, the provisions of this section.

### Sec. 10. DEDUCTIONS FOR ASSOCIATION EXPENSES

There shall be deducted pro rata from the payments with respect to any ranching unit all or such part as the Secretary may prescribe of the estimated administrative expenses incurred or to be incurred by

the county agricultural conservation association in the county in which the ranching unit is located.

#### **Sec. 11. ASSIGNMENTS**

Any person who may be entitled to any payment in connection with the 1941 Range Conservation Program may assign his interest in such payment as security for cash loaned or advances made for the purpose of financing the making of a crop in 1941. No such assignment will be recognized unless the assignment is made in writing on Form ACP-69 in accordance with instructions (ACP-70) issued by the Agricultural Adjustment Administration and unless such assignment is entitled to priority as determined under the instructions governing the recording of such assignments issued by the Agricultural Adjustment Administration.

Nothing contained in this section shall be construed to give an assignee a right to any payment other than that to which the ranch operator is entitled nor (as provided in the statute) shall the Secretary or any disbursing agent be subject to any suit or liability if payment is made to the ranch operator without regard to the existence of any such assignment.

#### **Sec. 12. ESTABLISHMENT OF GRAZING CAPACITIES**

There shall be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received on or before a date established by the regional director as affording reasonable opportunity for the filing of such applications. In determining grazing capacity, consideration shall be given to the following: (a) composition, palatability, and density of forage growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) presence or absence of rodents and poisonous plant infestations; and (f) number and classes of livestock previously carried. The average of the individual grazing capacities established for all ranching units in a county shall not exceed the county average grazing capacity limit established by the Agricultural Adjustment Administration on the basis of available statistics.

#### **Sec. 13. APPEALS**

Any person may within 15 days after notice thereof is forwarded to or made available to him request the county committee in writing to reconsider its recommendation or determination in any of the following matters respecting any ranching unit in which he has an interest: (a) eligibility to file an application for payment, (b) grazing capacity established for the range land in such ranching unit, or (c) any other matter affecting the right to or the amount of his payment with respect to the ranching unit. The county committee shall notify such person of its decision in writing within 15 days after receipt of such written request for reconsideration. If such person is dissatisfied with the decision of the county committee, he may, within 15 days after such decision is forwarded to or made available to him, appeal in writing to the State committee. The State committee shall notify such person of its decision in writing within 30 days after the receipt of the appeal. If such person is dissatisfied with the decision

of the State committee he may, within 15 days after such decision is forwarded to or made available to him, request the regional director to review the decision of the State committee.

Written notice of any decision rendered under this section by the county or State committee shall also be issued to each person known to it who, having an interest in the operation of the ranching unit, may be adversely affected by such decision. Only a person who shows that he is adversely affected by the outcome of any request for reconsideration or appeal may appeal the matter further, but any person who, having an interest in the operation of the ranching unit, would be affected by the decision to be made on any reconsideration by the county committee or subsequent appeal shall be given a full and fair hearing if he appears when the hearing thereon is held.

#### **Sec. 14. STATE AND REGIONAL BULLETINS, INSTRUCTIONS AND FORMS**

The Agricultural Adjustment Administration is hereby authorized to make such determinations and to prepare and issue such State and regional bulletins, instructions, and forms as may be required pursuant to the provisions hereof in administering the 1941 Range Conservation Program.

#### Section 1 RATES OF RANGE-BUILDING PAYMENTS

Within the limits of the range-building allowance and subject to the conditions hereinafter set forth, payment will be made for carrying out on range land in 1941 such of the range-building practices listed in this section as are recommended for the State by the State committee and approved by the Regional Director, and as are approved by the county committee for the ranching unit prior to their institution. The rates of payment listed below are the maximum rates allowable, and the rates of payment for any practice included may, for any State or area within a State, be adjusted downward by the State committee with the approval of the Agricultural Adjustment Administration in order to reflect relatively lower costs or desirability of the practice.

#### Sec. 2 RANGE-BUILDING ALLOWANCE

(a) Acres and grazing capacity. The provisions of this paragraph will be determined and announced by the Secretary as soon as information on which they are based is available.

(b) Mountain meadow land. In addition, the range-building allowance shall include 35 cents times the number of acres of mountain meadow land in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit. The counties in which this additional allowance is made shall be those mountain counties in the Western Region for which, upon the basis of the recommendations of the county and State committees, the regional director determines the reseeding and erosion control practices specified in Section 1 to be necessary and effective in promoting range conservation: Provided, however, the mountain meadow land for which this additional allowance is made shall not be considered in calculating the portion of the range-building allowance provided for in paragraph (a).

### Sec. 3 CONDITIONS OF PAYMENT

(a) Promotion of conservation and good range management. Payments for carrying out range-building practices are conditioned upon the adoption or maintenance of conservative range management practices designed to secure or maintain a good stand of grass or other palatable forage plants and in bringing about such use of the forage resources of the ranch as will most effectively carry out the purposes of the Soil Conservation and Domestic Allotment Act. Payments under the 1941 Range Conservation Program will be made only with respect to those ranching units on which the county committee certifies that such range management practices have been followed. The range-building practices approved by the county committee for any ranching unit shall be practices which the county committee finds are needed on the ranch in order to promote conservation and good range management.

(b) Payments limited to range-building allowance. The range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit. Payment will be made only if range-building practices are carried out according to specifications recommended by the State committee and approved by the regional director. Payments made for carrying out range-building practices shall not be subject to the deductions incurred under Section 1 of the 1941 Agricultural Conservation Program Bulletin.

(c) State or Federal Aid. If one-half or more of the total cost of carrying out any practice is represented by labor, seed, trees, or other materials furnished by any State or Federal agency other than the Agricultural Adjustment Administration, no payment shall be made for such practice. If less than one-half of the total cost of carrying out any practice is represented by such items, payment shall be made for one-half of such practice. Labor, seed, trees, and materials

furnished to a State or political subdivision of a State or an agency thereof by an agency of the same State shall not be deemed to have been furnished by "any State . . . agency" within the meaning of this paragraph.

Trees purchased from a Clark-McNary Cooperative State Nursery shall not be deemed to have been paid for in whole or in part by a State or Federal agency. No payment will be made for the planting of forest trees furnished by the Forest Service in connection with the Prairie States Forestry Project.

#### Sec. 4 CHANGES IN LEASING ARRANGEMENTS AND OTHER DEVICES

No payment will be made to any person who has for 1941 made any change from the 1940 leasing arrangements of range land for the purpose of, or which would have the effect of, diverting to such person any payment to which any lessee would be entitled if the 1940 leasing arrangements of such range land were in effect for 1941. If the State committee finds that any person who files an application for a payment pursuant to the provisions of the 1941 Range Conservation Program has made any change from the 1940 leasing arrangements of such range land or has employed any other scheme or device whatsoever for the purpose of, or which would have the effect of, depriving any other person of any payment or share therein to which such other person otherwise would be entitled, the Secretary may withhold in whole or in part from the person participating in such a scheme or device, or require such person to refund in whole or in part, the amount of any payment which has been or otherwise would be made to such person for performance in connection with the 1941 Range Conservation Program.

#### Sec. 5 ELIGIBILITY FOR PAYMENT

(a) Persons eligible to file application. Application for range-building payment may be made only by ranch operators. Range-building payments will be made to (1) a sole ranch operator, or (2) each ranch operator of a group of two or more ranch operators, provided they all signify in the application for the range-building payment a percentum of the total payment to be made to each ranch operator. In case there are two or more ranch operators, the application must be made by all of them, except that in cases where any ranch operator refuses to sign the application for payment the county committee shall determine the percentage share of each ranch operator and payment of his percentage share will be made to each ranch operator applying for payment in accordance with such determination.

(b) Time and manner of filing application and information required. Payment will be made only upon application submitted through the county office, on or before a date fixed

by the regional director, but not later than March 31, 1942. The Secretary reserves the right (1) to withhold payment from any ranch operator who fails to file any form or furnish any information required with respect to any ranching unit in which such ranch operator is interested, and (2) to refuse to accept any application for payment if any form or information required is not submitted to the county office within the time fixed by the regional director. At least two weeks' notice to the public shall be given in advance of the expiration of a time limit for filing prescribed forms.

(c) Excess cotton acreage. Any person who makes application for payment with respect to any ranching unit located in a county in which cotton is planted in 1941 shall file with such application a statement that the applicant has not knowingly planted or caused to be planted during 1941 cotton on land in any farm in which he has an interest in excess of the cotton acreage allotment determined for the farm for 1941 and that cotton was not planted in excess of such allotment by his authority or with his consent.

Any person who knowingly plants cotton on his farm in 1941 on acreage in excess of the cotton acreage allotment determined for the farm for 1941 shall not be eligible for any payment under the provisions of the 1941 Range Conservation Program. Any person having an interest in the cotton crop on a farm on which cotton is planted in 1941 on acreage in excess of the cotton acreage allotment for the farm for 1941 shall be presumed to have knowingly planted cotton on his farm on acreage in excess of such farm cotton acreage allotment if notice of the farm allotment is mailed to him prior to the completion of the planting of cotton on the farm, unless the farmer establishes the fact that the excess acreage was planted to cotton due to his lack of knowledge of the number of acres in the tract(s) planted to cotton. Such notice, if mailed to the operator of the farm, shall be deemed to be notice to all persons sharing in the production of cotton on the farm in 1941.

#### Sec. 6 PAYMENT RESTRICTED TO EFFECTUATION OF THE PURPOSES OF THE PROGRAM

All or any part of any payment which otherwise would be made to any person under the 1941 Range Conservation Program may be withheld (1) if he has adopted any practice which tends to defeat any of the purposes of the 1941 or previous range conservation programs, (2) if, by means of any corporation, partnership, estate, trust, or any other device, or in any manner whatsoever, he has offset, or has participated in offsetting, in whole or in part, the performance for which such payment is otherwise authorized, or (3) if, with respect to forest land or woodland owned or controlled by him, he adopts any practice which is contrary to sound conservation practices.

No payment will be made to any person if it is determined in accordance with instructions issued by the Agricultural Adjustment Administration that, with respect to any ranch which he owns or operates, the stand of grass has been decreased or the forage, tree growth or watershed has been injured by over-grazing in 1941.

#### Sec. 7 PAYMENTS COMPUTED AND MADE WITHOUT REGARD TO CLAIMS

Any payment or share of payments shall be computed and made without regard to questions of title under State law, without deduction of claims for advances (except as provided in Section 11), and without regard to any claim or lien against any crop or live-stock, or proceeds thereof, in favor of the owner or any other creditor.

#### Sec. 8 INCREASE IN SMALL PAYMENTS

The total payment computed for any person with respect to any ranching unit shall be increased as follows:

- (1) Any payment amounting to 71 cents or less shall be increased to \$1.00;
- (2) Any payment amounting to more than 71 cents but less than \$1.00 shall be increased by 40 percent;

#### Sec. 9 PAYMENTS LIMITED TO \$10,000

The total of all payments made in connection with programs for 1941 under Section 8 of the Soil Conservation and Domestic Allotment Act to any individual, partnership, or estate with respect to farms, ranching units, and turpentine places located within a single State, Territory, or possession, shall not exceed the sum of \$10,000 prior to deduction for association expenses in the county or counties with respect to which the particular payment is made. The total of all payments made in connection with programs for 1941 under Section 8 of the Soil Conservation and Domestic Allotment Act to any person other than an individual, partnership or estate with respect to farms, ranching units and turpentine places in the United States (including Alaska, Hawaii, and Puerto Rico) shall not exceed the sum of \$10,000 prior to deduction for association expenses in the county or counties with respect to which the particular payment is made.

All or any part of any payment which has been or otherwise would be made to any person under the 1941 Agricultural Conservation Program, including the Range Conservation Program, may be withheld or required to be returned if he has adopted or participated in adopting any scheme or device, including the dissolution, reorganization, or formation of any corporation, partnership, estate, trust, or by any other means, which was designed to evade, or would have the effect of evading, the provisions of this section.

#### Sec. 10 DEDUCTIONS FOR ASSOCIATION EXPENSES

There shall be deducted pro rata from the payments with respect to any ranching unit all or such part as the Secretary may prescribe of the estimated administrative expenses incurred or to be incurred by the county agricultural conservation association in the county in which the ranching unit is located.

#### Sec. 11 ASSIGNMENTS

Any person who may be entitled to any payment in connection with the 1941 Range Conservation Program may assign his interest in such payment as security for cash loaned or advances made for the purpose of financing the making of a crop in 1941. No such assignment will be recognized unless the assignment is made in writing on Form ACP-69 in accordance with instructions (ACP-70) issued by the Agricultural Adjustment Administration and unless such assignment is entitled to priority as determined under the instructions governing the recording of such assignments issued by the Agricultural Adjustment Administration.

Nothing contained in this section shall be construed to give an assignee a right to any payment other than that to which the ranch operator is entitled nor (as provided in the statute) shall the Secretary or any disbursing agent be subject to any suit or liability if payment is made to the ranch operator without regard to the existence of any such assignment.

#### Sec. 12 ESTABLISHMENT OF GRAZING CAPACITIES

There shall be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received on or before a date established by the regional director as affording reasonable opportunity for the filing of such applications. In determining grazing capacity, consideration shall be given to the following: (a) composition, palatability, and density of forage growth; (b) climatic fluctuations; (c) distribution and character of watering facilities; (d) topographic and cultural features; (e) presence or absence of rodents and poisonous plant infestations; and (f) number and classes of livestock previously carried. The average of the individual grazing capacities established for all ranching units in a county shall not exceed the county average grazing capacity limit established by the Agricultural Adjustment Administration on the basis of available statistics.

#### Sec. 13 APPEALS

Any person may within 15 days after notice thereof is forwarded to or made available to him request the county committee in writing to reconsider its recommendation or determination in any of the following matters respecting any ranching unit in which he

has an interest: (a) eligibility to file an application for payment, (b) grazing capacity established for the range land in such ranching unit, or (c) any other matter affecting the right to or the amount of his payment with respect to the ranching unit. The county committee shall notify such persons of its decision in writing within 15 days after receipt of such written request for reconsideration. If such person is dissatisfied with the decision of the county committee, he may, within 15 days after such decision is forwarded to or made available to him, appeal in writing to the State committee. The State committee shall notify such person of its decision in writing within 30 days after the receipt of the appeal. If such person is dissatisfied with the decision of the State committee he may, within 15 days after such decision is forwarded to or made available to him, request the regional director to review the decision of the State committee.

Written notice of any decision rendered under this section by the county or State committee shall also be issued to each person known to it who, having an interest in the operation of the ranching unit, may be adversely affected by such decision. Only a person who shows that he is adversely affected by the outcome of any request for reconsideration or appeal may appeal the matter further, but any person who, having an interest in the operation of the ranching unit, would be affected by the decision to be made on any reconsideration by the county committee or subsequent appeal shall be given a full and fair hearing if he appears when the hearing thereon is held.

#### Sec. 14 STATE AND REGIONAL BULLETINS, INSTRUCTIONS AND FORMS

## Section 1. RATES OF RANGE-BUILDING PAYMENTS

Within the limits of the range-building allowance and subject to the conditions hereinafter set forth, payment will be made for carrying out on range land in 1941 such of the range-building practices listed in this section as are approved by the county committee for the ranching unit prior to their institution; Provided, That payment for range-building practices other than (a), Natural Reseeding by Limited Grazing, shall not exceed 60 percent of the range-building allowance computed under Section 2(a), plus the range-building allowance computed under Section 2(b), less any deductions provided for in Section 3(c) and 3(e). No payment will be made with respect to any ranch on which practice (a), Natural Reseeding by Limited Grazing, is not carried out.

such use of the forage resources as will more effectively carry out the purposes of the Soil Conservation and Domestic Allotment Act. The county committee's determination with respect to goals shall be based on conservative range management, forage and feed resources of the ranch, topographic and cultural features, utilization of forage by wildlife and the extent to which the resources of the ranch have been utilized in a conservative manner.

livestock, provided adequate stock water is made available during the grazing season and the water is conveyed to a tank or trough. Payment will not be made for a well developed at any ranch headquarters.	
(j) <u>Development of Natural Watering Places.</u> For developing springs or seeps for the purpose of providing water for range livestock, provided the source is protected from trampling, and at least 20 cubic feet of available water storage is provided; and provided further, that the total cost of development is not less than \$20.00.	\$.30 per cubic foot in soil or gravel and \$.50 per cubic foot in rock formation for excavation of source, provided the minimum payment will be \$20.00 and the maximum payment \$100.00 for any single development.

## Sec. 2. RANGE-BUILDING ALLOWANCE

(a) Acreage and grazing capacity. The range-building allowance shall be 3 cents per acre of range land in the ranching unit plus 70 cents times the grazing capacity of the range land: Provided, however, That the grazing capacity item shall not be calculated on more than one animal unit for each 10 acres of range land in the ranching unit, and the acreage item shall not be calculated on more than 60 acres for each animal unit of grazing capacity established for the ranching unit: Provided further, That the amount computed under this paragraph shall not be less

than 8 cents times the number of such acres or 2,000 acres, whichever is smaller.

(b) Mountain meadowland. In addition, the range-building allowance shall include 30 cents times the number of acres of mountain meadowland in the ranching unit from which hay is normally harvested for feeding on the ranching unit to range livestock owned by the operator of the ranching unit: Provided, however, The mountain meadowland for which this additional allowance is made shall not be considered in calculating the portion of the range-building allowance provided for in paragraph (a).

### Sec. 3. CONDITIONS OF PAYMENT

(a) Limited grazing. No payment for range-building practices carried out under Section 1 will be made unless limited grazing has been carried out on the ranching unit during 1941.

(b) Promotion of conservation and good range management. Payments for carrying out range-building practices are conditioned upon the adoption or maintenance of conservative range management practices designed to secure or maintain a good stand of grass or other palatable forage plants and in bringing about such use of the forage resources of the ranch as will most effectively carry out the purposes of the Soil Conservation and Domestic Allotment Act. Payments under the 1941 Meagher County, Montana, Range Conservation Program will be made only with respect to those ranching units on which the county committee certifies that such range management practices have been followed. The range-building practices approved by the county committee for any ranching unit shall be practices which the county committee finds are needed on the ranch in order to promote conservation and good range management.

(c) Payments limited to range-building allowance. The range-building payment with respect to any ranching unit shall not exceed the range-building allowance for such ranching unit. Payment will be made only if range-building practices are carried out according to specifications recommended by the State Committee and approved by the Regional Director. However, in 1941 if any area in excess of 10 percent of the ranching unit is overgrazed within a ranching unit on which the performance of limited grazing has been approved and, in the judgment of the county committee, this abuse was deliberate and was done for profit or through negligence, a deduction shall be made equal to five times the limited grazing payment computed for the area affected, at the average per-acre rate earned for carrying out limited grazing under Practice (a).

(d) State or Federal aid. If one-half or more of the total cost of carrying out any practice is represented by labor, seed, trees, or other materials furnished by any State or Federal agency other than the Agricultural Adjustment Administration, no

payment shall be made for such practice. If less than one-half of the total cost of carrying out any practice is represented by such items, payment shall be made for one-half of such practice. Labor, seed, trees, and materials furnished to a State or political subdivision of a State or an agency thereof by an agency of the same State shall not be deemed to have been furnished by "any State . . . agency" within the meaning of this paragraph.

Trees purchased from a Clark-McNary Cooperative State Nursery shall not be deemed to have been paid for in whole or in part by a State or Federal agency. No payment will be made for the planting of forest trees furnished by the Forest Service in connection with the Prairie States Forestry Project.

(e) Deduction for failure to maintain practices under previous programs. Where the county committee, in accordance with instructions of the State Committee, determines that (1) water developments or fences constructed or forest trees planted are not maintained in accordance with good ranch management; (2) seedlings of perennial legumes or grasses are destroyed after ranch operators have been informed that the destruction of such legumes or grasses is contrary to the purposes of the program; or (3) the effectiveness of any range-building practice carried out under a previous program is destroyed in 1941 contrary to good range management, there will be deducted from payments which would otherwise be made with respect to the ranching unit an amount equal to the payment which would be made in 1941 for a similar amount of such practices.

Payments computed for any person for carrying out range-building practices shall be subject to any net deductions which are or could be computed for such person under the provisions of the 1941 Agricultural Conservation Program Bulletin except net deductions resulting from acreages of winter wheat in excess of the wheat acreage allotment or acreages of soil-depleting crops in excess of the total soil-depleting acreage allotment.

#### Sec. 4. CHANGES IN LEASING ARRANGEMENTS AND OTHER DEVICES

No payment will be made to any person who has for 1941 made any change from the 1940 leasing arrangements of range land for the purpose of, or which would have the effect of, diverting to such person any payment to which any lessee would be entitled if the 1940 leasing arrangements of such range land were in effect for 1941. If the State Committee finds that any person who files an application for a payment pursuant to the provisions of the 1941 Meagher County, Montana, Range Conservation Program has made any change from the 1940 leasing arrangements of such range land or has employed any other scheme or device whatsoever for the purpose of, or which would have the effect of, depriving any other person of any payment or share therein to which such other person otherwise would be entitled,

the Secretary may withhold in whole or in part from the person participating in such a scheme or device, or require such person to refund in whole or in part, the amount of any payment which has been or otherwise would be made to such person for performance in connection with the 1941 Meagher County, Montana, Range Conservation Program.

#### Sec. 5. ELIGIBILITY FOR PAYMENT

(a) Persons eligible to file application. Application for range-building payment may be made only by ranch operators. Range-building payments will be made to (1) a sole ranch operator, or (2) each ranch operator of a group of two or more ranch operators, provided they all signify in the application for the range-building payment a percentum of the total payment to be made to each ranch operator. In case there are two or more ranch operators, the application must be made by all of them, except that in cases where any ranch operator refuses to sign the application for payment the county committee shall determine the percentage share of each ranch operator and payment of his percentage share will be made to each ranch operator applying for payment in accordance with such determination.

(b) Time and manner of filing application and information required. Payment will be made only upon application submitted through the county office, on or before a date fixed by the Regional Director but not later than April 30, 1942. The Secretary reserves the right (1) to withhold payment from any ranch operator who fails to file any form or furnish any information required with respect to any ranching unit in which such ranch operator is interested, and (2) to refuse to accept any application for payment if any form or information required is not submitted to the county office within the time fixed by the Regional Director. At least two weeks' notice to the public shall be given in advance of the expiration of a time limit for filing prescribed forms.

(c) Excess cotton acreage. Any person who makes application for payment with respect to any ranching unit located in a county in which cotton is planted in 1941 shall file with such application a statement that the applicant has not knowingly planted or caused to be planted during the 1941 cotton on land in any farm in which he has an interest in excess of the cotton acreage allotment determined for the farm for 1941 and that cotton was not planted in excess of such allotment by his authority or with his consent.

Any person who knowingly plants cotton on his farm in 1941 on acreage in excess of the cotton acreage allotment determined for the farm for 1941 shall not be eligible for any payment under the provisions of the 1941 Meagher County, Montana, Range Conservation Program. Any person having an interest in the cotton crop on a farm on which cotton is planted in 1941 on acreage in excess of the cotton acreage allotment for the farm for 1941 shall be presumed to have

knowingly planted cotton on his farm on acreage in excess of such farm cotton acreage allotment if notice of the farm allotment is mailed to him prior to the completion of the planting of cotton on the farm, unless the farmer establishes the fact that the excess acreage was planted to cotton due to his lack of knowledge of the number of acres in the tract(s) planted to cotton. Such notice, if mailed to the operator of the farm, shall be deemed to be notice to all persons sharing in the production of cotton on the farm in 1941.

Sec. 6. PAYMENT RESTRICTED TO EFFECTUATION  
OF THE PURPOSE OF THE PROGRAM

All or any part of any payment which otherwise would be made to any person under the 1941 Meagher County, Montana, Range Conservation Program may be withheld (1) if he has adopted any practice which tends to defeat any of the purposes of the 1941 or previous range conservation programs, (2) if, by means of any corporation, partnership, estate, trust, or any other device, or in any manner whatsoever, he has offset, or has participated in offsetting, in whole or in part, the performance for which such payment is otherwise authorized, or (3) if, with respect to forest land or woodland owned or controlled by him, he adopts any practice which is contrary to sound conservation practices.

No payment will be made to any person if it is determined in accordance with instructions issued by the Agricultural Adjustment Administration that, with respect to any ranch which he owns or operates, the stand of grass has been decreased or the forage, tree growth, or watershed has been injured by overgrazing in 1941.

Sec. 7. PAYMENTS COMPUTED AND MADE WITHOUT  
REGARD TO CLAIMS

Any payment or share of payments shall be computed and made without regard to questions of title under State law, without deduction of claims for advances (except as provided in Section 11), and without regard to any claim or lien against any crop or livestock, or proceeds thereof, in favor of the owner or any other creditor.

Sec. 8. INCREASE IN SMALL PAYMENTS

The total payment computed for any person with respect to any ranching unit shall be increased as follows:

- (1) Any payment amounting to 71 cents or less shall be increased to \$1.00;
- (2) Any payment amounting to more than 71 cents but less than \$1.00 shall be increased by 40 percent;

### Sec. 9. PAYMENTS LIMITED TO \$10,000

The total of all payments made in connection with programs for 1941 under Section 8 of the Soil Conservation and Domestic Allotment Act to any individual, partnership, or estate with respect to farms and ranching units in the State of Montana shall not exceed the sum of \$10,000, prior to deduction for association expenses in the county or counties with respect to which the particular payment is made. The total of all payments made in connection with programs for 1941 under Section 8 of the Soil Conservation and Domestic Allotment Act to any person other than an individual, partnership, or

estate with respect to farms, ranching units and turpentine places in the United States (including Alaska, Hawaii, and Puerto Rico) shall not exceed the sum of \$10,000, prior to deduction for association expenses in the county or counties with respect to which the particular payment is made.

All or any part of any payment which has been or otherwise would be made to any person under the 1941 Agricultural Conservation Program, including the Range Conservation Program, may be withheld or required to be returned if he has adopted or participated in adopting any scheme or device, including the dissolution, reorganization, or formation of any corporation, partnership, estate, trust, or by any other means, which was designed to evade, or would have the effect of evading, the provisions of this section.

#### Sec. 10. DEDUCTIONS FOR ASSOCIATION EXPENSES

There shall be deducted pro rata from the payments with respect to any ranching unit all or such part as the Secretary may prescribe of the estimated administrative expenses incurred or to be incurred by the county agricultural conservation association in the county in which the ranching unit is located.

#### Sec. 11. ASSIGNMENTS

Any person who may be entitled to any payment in connection with the 1941 Meagher County, Montana, Range Conservation Program may assign his interest in such payment as security for cash loaned or advances made for the purpose of financing the making of a crop in 1941. No such assignment will be recognized unless the assignment is made in writing on Form ACP-69 in accordance with instructions (ACP-70) issued by the Agricultural Adjustment Administration and unless such assignment is entitled to priority as determined under the instructions governing the recording of such assignments issued by the Agricultural Adjustment Administration.

Nothing contained in this section shall be construed to give an assignee a right to any payment other than that to which the ranch operator is entitled nor (as provided in the statute) shall the Secretary or any disbursing agent be subject to any suit or liability if payment is made to the ranch operator without regard to the existence of any such assignment.

#### Sec. 12. ESTABLISHMENT OF GRAZING CAPACITIES

There shall be established a grazing capacity for each ranching unit for which an application for determination of grazing capacity is received on or before a date established by the Regional Director as affording reasonable opportunity for the filing of such applications. In determining grazing capacity, consideration shall be given to the following: (a) Composition, palatability, and density of forage growth; (b) climatic fluctuations; (c) distribution and

character of watering facilities; (d) topographic and cultural features; (e) presence or absence of rodents and poisonous plant infestations; and (f) number and classes of livestock previously carried. The average of the individual grazing capacities established for all ranching units in the county shall not exceed the county average grazing capacity limit established by the Agricultural Adjustment Administration on the basis of available statistics.

### Sec. 13. APPEALS

Any person may within 15 days after notice thereof is forwarded to or made available to him request the county committee in writing to reconsider its recommendation or determination in any of the following matters respecting any ranching unit in which he has an interest: (a) Eligibility to file an application for payment, (b) grazing capacity established for the range land in such ranching unit, or (c) any other matter affecting the right to or the amount of his payment with respect to the ranching unit. The county committee shall notify such person of its decision in writing within 15 days after receipt of such written request for reconsideration. If such person is dissatisfied with the decision of the county committee, he may, within 15 days after such decision is forwarded to or made available to him, appeal in writing to the State Committee. The State Committee shall notify such person of its decision in writing within 30 days after the submission of the appeal. If such person is dissatisfied with the decision of the State Committee, he may, within 15 days after such decision is forwarded to or made available to him, request the Regional Director to review the decision of the State Committee.

Written notice of any decision rendered under this section by the county or State Committee shall also be issued to each person known to it who, having an interest in the operation of the ranching unit, may be adversely affected by such decision. Only a person who shows that he is adversely affected by the outcome of any request for reconsideration or appeal may appeal the matter further, but any person who, having an interest in the operation of the ranching unit, would be affected by the decision to be made on any reconsideration by the county committee or subsequent appeal shall be given full and fair hearing if he appears when the hearing thereon is held.

The 1941 Range Conservation Program, as amended, is further amended as follows:

Section 5(b) is amended to read as follows:

Section 5 Eligibility for Payment

(b) Time and manner of filing application and information required. Payment will be made only upon application submitted through the county office on or before a date fixed by the regional director, but not later than April 30, 1942, except (1) the timely filing of an application by one person on a ranching unit shall constitute a timely filing on behalf of all persons on that ranching unit, and (2) an application for payment may be accepted if the State committee or its designated representative determines, in accordance with instructions issued by the regional director with the approval of the Administrator, that the failure to file the timely application was not due to the fault of the applicant. The Secretary reserves the right (1) to withhold payment from any ranch operator who fails to file any form or furnish any information required with respect to any ranching unit in which such ranch operator is interested, and (2) to refuse to accept any application for payment if any form or information required is not submitted to the county office within the time fixed by the regional director.

At least two weeks notice to the public shall be given of the expiration of a time limit for filing prescribed forms, and any time limit fixed shall be such as affords a full and fair opportunity to those eligible to file the form within the period prescribed. Such notice shall be given by mailing the same to the office of each county committee and making copies of the same available to the press.
